

People Pledge

At People Know How we value our team, as they make everything we do possible.

This includes our:

- Volunteers
- Students on Placement
- Interns
- People on Work Experience

We believe that everyone should benefit personally from being part of our team and fulfil their, personal aims and objectives in equal measure to that of our organisational aims and objectives.

As such we will provide a supportive learning environment where what you achieve is of equal value and importance to what we achieve organisationally.

We will deliver high quality and innovative projects at the same time as offering meaningful and supportive opportunities for all team members.

We call this our "People Pledge" and all we ask in return is your commitment to engage fully with us and strive to achieve the best you can.

Together we will complete an agreement - our "A-Plan" - to describe your role, what tasks you are committing to, how you want to grow personally and professionally, and how we will support you. We will meet regularly to review this and support you.
